SUMMARY

Software Engineer specializing in frontend, with 3+ years of experience building fast, responsive web and mobile applications with React, Next.js and React Native. Comfortable working across the full stack, from API and map integrations to cloud architecture, admin systems and AI-powered features, and delivering products end to end. Shipped production websites for Crown Group's brands and cross-platform apps live on Google Play and the App Store. Focused on clean interfaces and scalable, maintainable code.

PROFESSIONAL EXPERIENCE

Frontend Developer Aug 2025 – Present

Crown Group

- Build and maintain production websites for Crown Group brands with Next.js and React, taking features from design to deployment.
- **Crown Electric Mobility:** Built a dealer finder with interactive map and list views covering 110+ stores, along with model pages, a fuel-savings calculator and test-ride booking.
- **Charge Pro:** Developed an admin panel to manage EV charging devices and monitor their performance; designed a scalable cloud architecture for high availability and security.
- **Live projects:**

Crown Electric Mobility	crownelectricmobility.com	**Crown Group**	crowngroup.com.pk
Crownsoft	crownsoft.co	**Crown One**	crownone.app
Rider Pro	riderpro.io		

Associate Frontend Engineer Dec 2023 – Aug 2025

Siliconplex

- **GoBro & GoBro Pro:** Built customer and service-provider React Native apps for booking home services, with live booking status, orders and earnings dashboards.
- Integrated Google Maps, Places API and social login to streamline onboarding and service discovery.

Intern Jun 2023 – Aug 2023

Folio3 Software

- Contributed to a React JS web application, gaining hands-on experience with modern frontend workflows.

PERSONAL PROJECTS

Kinder Pilot — Daycare & School ERP (IN DEVELOPMENT) Next.js · React · TypeScript

- Designing and building a multi-branch ERP for daycare and school operators, with a Head Office console to manage every branch from one place.
- Built a live operations dashboard (attendance, staff-to-child ratios per classroom, incidents, stock alerts, daily collections) and 30+ modules covering admissions, student care, health & safety, billing and fee approvals, HR & payroll, procurement and analytics.
- **Demo:** daycare-erp-inky.vercel.app/dashboard

Clutr — Shared Life Organizer React Native · iOS & Android

- Designed and built a cross-platform app, published on Google Play and the App Store, that keeps couples, families and roommates in sync with shared calendars, tasks, to-do lists and a built-in AI assistant.
- **Google Play:** play.google.com/store/apps/details?id=com.clutrlabs.clutr
- **App Store:** apps.apple.com/us/app/clutr-shared-life-organizer/id6782153567

SKILLS

Specialization	Frontend: React JS, Next.js, React Native, responsive UI
Languages	JavaScript (ES6+), TypeScript, HTML5, CSS3
Integrations	Google Maps, Places API, Social Login, REST APIs
Beyond Frontend	Cloud architecture, admin panels & ERP systems, mobile apps, AI-powered features

EDUCATION

Bachelor's in Software Engineering
University of Karachi, UBIT
2019 – 2023

CERTIFICATIONS

- Web Development — Saylani Mass IT Training
- Summer Internship — Folio3 Software
